And God cried Perception

Psalm's 77:10 - The clouds poured water,
the clouds sent out a sound,
thine arrows also went abroad,
The voice of thunder was in the heavens
the lightnings lighted the world,
the earth trembled and shook.

Psalm's 139:14-
I will Praise you for I am fearfully and
Wonderfully Made.

Perception

The Picture is Painted of our creator's feelings of love toward us his favored creations. When the father of Creation Made us, all that was in his being was love. With eternal love we were fashioned, brought forth and given life. So beautiful Was Plan for us. However through our own self Corruption

We caused our father to have to hide his glory that he would shine on us because of our own attitudes and actions. The hatred that we despense at unbelievable levels toward eachother. Such hard work we Put into actually destroying the very Creation that was created to be the Candle of his glory. It's amazing how scientific study have worked so hard, scientific explanation for every thing, to try to explain things they are baffled by, trying to find some Way to give them meaning, failing to realize you Can't give me to Something you didn't make.

Some way to give them meaning, often Means for some trying to undermine his existance, that will never happen.

And God Cried
Perception (Cont.)

---

*These people fail to realize you can't give two wonderful things

1) God created the same things and principles science stands on, so he is science.

2) Some things God leaves baffling to the mind so you can't help but marvel at just how mysterious and awesome he really is!

We have a scientific process said to cause confusion and I'm not saying that isn't correct, however I also know there are things, circumstances, and that go beyond the scientific process of explanation. The very fact of existance its self, not to mention a very light weight computer made of flesh called a brain. They have yet to figure it out, or even the DNA strand, but you know who does know them, the one that made them, the father creator himself. And they would scoff at belief, except there's one problem, the father constantly shows his power through his love of creation, also my life. Even a scientist's theories in the end, only confirm that his presence and power does exist every time they discuss the beautiful scientific wonders, or get stumped and can't explain them at all.

SoSo Book 1 Book Excerpts

And God Cried Perception (Cont)

I know that not everything happens the way, or because of what we think it does, either at all or most of the time, the father has so many ways to express his love, like those little and big miracles we experienced, that we know should have Never happend. We have all witnessed wonders that have left us awe Struck. However if these things should occur due to his love, and to show his power to strengthen us, then why would it be diffrent to show us his hurt disappointment, and concern for beloved ones who constantly find ourselves falling father away from that love, think about that the next you look around to

behind our man made chaos, and you look up to see the clouds turning gray, and those raindrops fall upon you. Scientific Process you say? maybe, then again, Maybe not. We all have our own truths that Seem Self evident, until our eyes are forced to focus on things that appear In the true reality Sense, and not what we want it to be, let your truth be the real Judge.

I am a personal fan of mother Mya Angelou. She was a amazing Poet and Story teller. She was also a real Queen. I have never read the book I know what the Caged bird Sings, but I have heard so much about it. I was born in Prison, so the name caught my attention. It brought me to mother Mya. I felt like she was Putting a name to my Pain, because I was serving MY first Prison sentence at 18 Yrs old, A Youth given a mandatory 12 years to do. It's even more distressing when we have to remember that were in white America, Where the black male is a target For 2 Directions in this country, Death or Prison. Not Very Inspiring huh? We feel like Were Caged, as a matter of fact as I write this book, Im Still Caged. It Seems as those this Closes the Plan for the black man, either Cage him or kill him but keep him down. Yet the black race was Infused with a Strength unrealized. The things and Pains we as a People black, and humanity Suffers and Continue to Suffer from. It takes the Strength of a God to hold hearts and keep heads up, and because of that MY People and humanity are giving thank to God For his Mercy and We keep ascending.

We have cried about these shackles that have been cutting our flesh and bone for quite a few hundred years now, we are tired of you caging us. We are the ones who you have piled on top of each other like roaches (mass incarceration), and we're tired of you keeping us caged from our families that need us, to be given a opportunity to come home.

But cages are meant to be for a reason, and they are also made with keyholes so looking for them to do the right thing in the we do what we want System is a farse. Over 400 years of doing time I have learned to see the truth of their plan, the power of us blacks in humanity and in spirit, which is why we were brought to this country in the manner we were, and that was to either break it or kill, or just deform it.

It gave birth to the beatings torcherings, starvings and seperations from family.

Yet the black race, or even humanity still finds the keys of spirit in the gifts of God the father to make beautiful things like music the human comes from a being so strong not even the wickedness of the world can crush when it knows this, and it shines in us to the

Im reminded of a documentary about the late and Greatly well known Amchel rothchild whos family is a founding family in a World financial Process. The documentary introduced Some facts about the financial Genius that I was unaware of for instance

1) the family lived in the Ghetto Slums of harlem where the Jewish lived
2) the family ate out of Pots when he was Young
3) Amchel Rothchild grew up wearing worn clothes and had holes in his Socks

Amchel grew tired of being financially destitute and being finacially destitute, and decided to raise his voice in a Manner that gave him the ability to create a financial method that

The word is Gods Canvas, and he Paints,

draws, Sketches, and displays across the Globe for all to See that would behold its unbelievable beauty, and be awed Senseless, and he does not fail in his mission. everything that is displayed in this wonderful work of art, that we as humanity have learned to call life, has a Specific meaning behind it, theirs a role it Must Play in this divine of art of God especially his offering of humanity. Deep in the depths of the Soul of humankind their is a Jewel that is buried, it hides amongst the everyday debri of our life, Such as Pain, misery, bitterness, hate, bias, racism, Greed, envy etc.

Social Psychology

We go through everyday life piling ontop of that Jewel, and is that is to our discomfort. For Some of us, once the Jewel is finally uncovered, we realize the divine role that is designated for us to Play in Gods real life art expo, is inside that Jewel, and we call that Jewel... Purpose.

Purpose thoe Some live oblivious to Such a word, Is a wonderful thing, why? because in a life filled with turmoil, hopelessness, and despair, that one word adds So much meaning. It gives vision where their is none, and guides the Person to understandings of themselves, and all that around them, which in turn sit them inside a Place of enlightenment, where their was once only darkness, giving them a Place in Gods Art exhibit, and a Scene in the Show of life.

Sadly to Say, Some Scenes never get to See display.

What are you looking at me like that?
I asked. Staring into the eyes of and raw uncut lust, that had me so heated! And heavy for Pleasure, and Pleasuring. I almost salivated, Yet he was focused on me, like a Dying mans last meal. My legs began to fan back and forth, because of the way he looked at me was making me was making My vagina moist with lubrication and feminine feelings. My Labia I licked them, as if trying to Signal to him Come hither and ease the Quiverings that were causing the itchy tingling In My Spine. He was Very handsome, and attractive, Very artistic, he looked very Soft Spoken. He loved to write me Poetry. He had a brilliant way With Words, oh... the way he could make things rhyme in song. He wrote, But right now I was more concerned With how good he was with his mouthing, and how many rhymes he Could create on My clitoris with his tounge... Oh Yeah, that's the ticket, and I hope that he can digest because he had Sexy Lips, I eyed them, Intentively, to let him know, I wanted him! to Put together a nice Olus on My Labia majora, ...
"and give me a good climax in the Labia minora with his long tounge and Pop! ... Pop!...Pop!

I did that with My tounge and he Squinted his glowing Golden looking eyes, burning into My Mind like Sun beams...
Yet all I could do is look into that light and all that Sauce and Sex.

Women are more Sexual than men, where as men who are governed by the laws of attraction, and subject to being drawn to them, and hypnotized by them, a woman is the living embodiment of those laws and their and consequences there-of, but that Psychology is also a state of mind. There is no direct definition of free Spirit, so we will have to breakdown the words as Compounds definitions

Emmotionless

The base of emmotionless is a emmotion this is something the nymPho lacks it cannot afford to feel off emmotions, Such as love, hate, or fear but keeping emmotion at bay. It leaves room to create the fantasy world, because they dont run the risk of failing. For a Conquest, however, the risk is this, they risk failing at a time that causes them to miss opportunity. The fantasy world is built on one main Principle.

It is the Pillar of it all (fantasy), when it is gone, the land collapses, all because the nymPho was afraid to feel, which leaves room for decisions to be assessed or checked out.

impatient

This is also a Marking Identity for the nymPhos due to the fact that because of them being adventurous it feels their desires for it to immediately begin. So once their **senses** key in on a Conquest to conquer, however they create it, it begins immediately.

Passionate

Here is where the nymPho distinguishes emmotional feelings. from a cum off of a orgasm the nymPho desires to excite the Conquests thoughts into the Powering off of their feelings and emmotions of Situations and circumstances.

However the nymPhos version of Passion is the Sweaty and lustful Moments that the nymPho can Create with its Process and Sexual Prowess,

Locking the Conquest into brainwashed Sexual captivity.

Its a Passionate moment inside of Persivation that created the opportunity for Mental oppression.

Dominant

The life of Dominance creates its self Inside of the meaning of the word Dominat which means - controlling or Prevailing over all others to have a commanding Position a controlling Power over. Nymphos are very aggressive inorder to over come masculine Sexual Dominance, they are very masterful at Sexual gratification Physically and also in other Psychologically Dominating areas, but Dominance Possess accutrement in the area of Physical sex, because it is the area where they master the ability to break down defense.

which cause the conquest to weaken in defense due to being overcome by the Nymphs erotic Prowess, which Makes them Give themselves in will and Conscious thought, Giving the Nymph the Purpose of Control.

Solo II Sexual

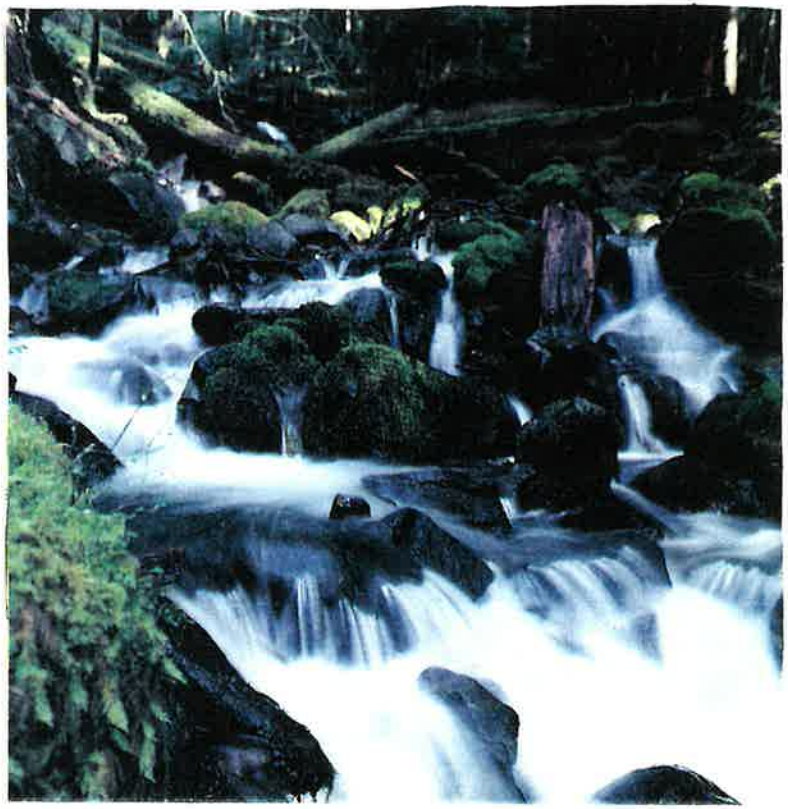
Orgasmic

The orgasm is the Point of focus for the nymPho or the climax of the sexual exhilentare if mastered Just right, as for the methods and Manuvers they leave a Psychological Mark on the conquest, the objective to the nymPho lies here.

The right orgasm leaves a visual Projected view. Fixated on the Cerebral cortex or the Surface later of Grad Matter of cerebrum functions Chiefly in coordination of Sensory and Motor information in this case for the it would be the Memory creating the right Sexual memory, locking it in the orgasm causing the conquest to stave the memory in the Subconscious, Calling it up everytime the nymPho creates Situations of entrement, or even if their not around because

Psychology

the unbelievable orgasm keeps the nymPho as a Point of focus, locking them in their Minds creates a Strong hold and that creates the Chemical element of emmotional Stirring in the heart which causes feelings to occur for the nymPho by the conquest.



Solo II Sexual Psychology Book Excerpts

Experimental

Experimental or the Process of testing. this is a area and tool of desire and attraction building also for the nymfo who uses this to create fantasy of the ates, which cause the same stimulated heartbeat Mind, Culturing it by the element of cultivation. The Conquest, is effected by the Sight of that fantasy and the thought, that their being allowed to experience it causes, and creates a hypnotizing Control over their thought Process, which gives the nymfo the Power to Steer them as they Please.

Teaser

To tease, is to annoy Persistently in fun but Goading or Coaxing even tantalizing. The art of fantasy, Something that is beautifully intoxicating and Exhilirating all in itself, based upon the effects it has on the mind, Reason being it gives the fantasizer the ability to live life in angles of wonder Luminuence and orgasmic ~~occular~~, that leaves you held Captive but the experience of it. Nymphos know this also, so the tease is one of their Methods to use to mesmerize the Conquest into a Place of being mental for and two the Gratifications of the Nympho

Promiscuous

As I stated Nymphos are PowerSeekers who desire to create a world of fantasy, Nymphos have mastered the abilities to amass that Power based upon the Structuring of the Conquest in and involving that fantasy. They create Acquisitions of Power, through labled Promiscuous behavior, they understand that Power is a webbing Process, Very meticulous, artistic, Strategic and Potent. They work the angles of Strategy, to put together their methods.

for them or the Nympho rather being Promiscuous is not Just about Sex to them it is a tool to formulate Position, Power and Platform.

I was so stressed and tense from the days activities, that all I could do was learn to lean to the glass of my Shower door Pushing My hand against it as the water ran down my back creating Niagra falls between my buttocks dripping down into My crotch to My valley of Paradise. I leaned My head back throwing the locks of My hair over My Shoulders. Opening My mouth to exhale that breath of Sexually frustated fire as the dam Plateed over My mind over and over and over again. Then I felt a Presence. Hands that were like mist Sliding over My Shoulders, Slowly Massaging my Shoulder blades at first I thought nothing of it, thinking it was the Steam rising up Causing the Pores in My face to open, releasing the very essence of My being. I looked back and

what I saw made me gasp in shock there were eyes watching me that looked like light. I stared into them and immediately became hypnotized. then they became a face licking his lips in a seductive fantilization. I looked hard into the mist to see it's identity, it was a man. My eyes widened but not just because of the shock of seeing some mans face in mist licking his lips at me, but from the fact that while I was unnerved and caught by surprise, his eyes gazed, his mist hands changed positioned from my shoulders to groping my left breasts fondling my erect nipples, and sliding between my thighs, and I felt a rush from his telepathic touch.

Telekethic touch Perception

A definition of telepath or telepathy— apparent communication from one to another Mentally by extrasensory means.
In ancient times the ancestors were blessed to have more capacity of Mental Psychic brain power than we do today because this was possible. That were able to Perform certain abilities not common to the average mind or humanistic Principles. Telepathy is one of the main abilities because it created a language for the ancestors to utilize for a Point of Communication. Sexual Performance is Mental 1) Physical 2) emmotional 3) and the Spirit is the Circumference of the first 3 Principles. This represents the fire and Passion of life to create what is Sexual existence, which can be called the 4 Sexual elements. Fore Play is what is called the appetizer of Sexual intoxication it in itself is a

language of Sexual communication that incorporates diffrent Sexual and Sensual Syllables that are components that teach how to speak Proper Sensual language.

Indwelling

Indwelling - *indwelling* is a esoteric word of Spiritual understanding and introduces a world of Spirituality unknown to most. It is a World of invoking the Spiritual Presence to Manifest it's Self in reality. this happens in Various ways. 1) Belief Principle, 2) Incantations, 3) Vessel invitations 4) domineering Possession these are examples Processes through esoteric Manueverabilities, or methods that create a way to Consumate or aquire a host or vessel in which to dwell. A nemeka Possesses the ability to utilize all of these Methods for the Purpose of Conquest, OR, the mission to Conquer another host for the Purpose of Sexual gratification.

whether Spiritual, or Mental-ewal Physical the belief Principle is helpful.

Incantations - as dealing with nemekas would be innuendos or hinting Possible insinuations, these are Provocative Whisperings or Mumblings a Specific moment to create the mental desire bubble of Piqued interests that turns into a driving force of attraction. this gives the nemeka the chance to indwell Spiritually within the host or Particular Conquest Spirit by way of the desire Primeval and Piqued interests. Spoken like Spells that are layered, with different Promiscous Sexual auras. They draw the Conquest to them, and the Power of the innuendo Creates a living in Presence in the hosts Spirit Constantly keeping them in chase of the nemeka to bond intwined with the aura that has it Spiritually Captive and chasing. Vessel Invitation

Vessel – the definition of vessel is for the way I intend to use it means – a container as a barrell, bottles, bowel or Cup.

container – which means ~~REST~~ Pen restrain, hold, Comprise which the er Suffix allied at the end of each word creates a definition that Signifies as one that Passes Something within it.

of Consorts, but the nymPho likes to have them bent to its Sexual thirsts, and Cravings as to utilize at the nymPhos beck and Call. So to make this Possible, the nymPho must instill its Sexual Principles and nature Spiritually within the desired Consorts, its Spirit leaving a Peice of its Self left in the Consort and the Consorts though the willingness or allowance, it responds due its will an discipline being Submitted to the Peice of the nymPho in it.

Domineering Possession

domineering base word – dominance Means – Control or occupancy, of Property, Ownership, domination by Something, evil Spirit, a Passion or and Idea – nymPhos are Subtley domineering. Perception

Cyber – Means involving Computers or Computer networks.

brain Means – a body of mass or nerve tissue that holds cells that Store information that Creates intellect or intelligence

Sex – Sexual activity or behavior dealing in reproduction.

Cyber is a form of Computerized Programing, what do Computers do, that Store information. The brain is a similar tool.

Equation E + I + PA = CS or External + Internal + Pheromone Attraction = Conscious to Subconscious. How So You ask? let me explain

The computer is a Programable electronic device,

Psychology

that can Store, retrieve, and Process data, the brain is a like device of Physical Human make up that does Precisely the Same things. The Computer Stores on what is called a memory chip, here is where the Data or info is retrieved. the brain is the Same type of device, Justin humanistic Principles. It Stores in the cells in what is called Cell memory. The memory and the Situations and Circumstances involved is what networks the Computer has. The same based upon the Same elements to go online, You must access the data and bring it up, to the Computer Screen, based upon the Codes to give the Computer System to bring it up. Same applies For the brain to go online, You Get in that Particular memory based Code.

Equation – C-S + SC = Ct once You access the memory it Plays like a movie on Your frontal Lobe, and is reflected through Your eyes Principles.

SoPo II Sexual Pschology

what is this thing So important it's simple. Cyber means the involving of Computers or Computer networks, and Sex means sexual activity or behavior dealing in intercourse or reproduction. A definition of Cyber Sex is Sexually Oriented material available on computer. My attempt is to show how the brain creates the Cyber Sex elements that are experienced with the body.

The Humanistic first Applies equation EIE + K = S or External Internal Experience Plus registration = storage. Then creates the Code For retrieval equation CS + Sc = ct which is Physical mental on line visualization code.

Which Means Circumstance and Situation to Subconscious = Conscious thought.

this code pulls the data in the human memory bank up based upon the Subconscious ability to link the code to a data recollection that fits the code. Then it Plays it on the minds frontal lobe, reflected on the eyes reflection Projection Connection to the minds eye or frontal lobe for viewing, Now Your online, So, if the content pulled up on the CS + Sc = ct Code is Sexually oriented then that would Create Cyber Sex.

Cyber Sex also can be utilized through the Comeuter / brain in combination with technology the brain Controls the body which is the same as a robotic object which creates the ability for Sexual Content or behavior or activity for Sexual expression in that robotic or andrdial / Human body Principle
